

The Galapagos Islands

The Galapagos Islands

The solutions against threats to the Galapagos Islands

- Protection of natural habitats
- Tourism regulation
- Control of imported species
- Add security and security cameras around the island

Protection of
NATURAL
Habitats

A woman in a red bikini and snorkel gear is standing on a rocky beach, giving a thumbs up. She is wearing a red bikini top and bottom, a snorkel mask, and a snorkel. She is also wearing blue and black fins. In the background, other people are visible on the beach, some sitting on the rocks and some standing. The ocean is visible in the distance under a blue sky with some clouds. A white circular graphic is overlaid on the right side of the image, containing the text "Regulate Tourism".

Regulate Tourism

Control of imported species

Add security and security cameras around the islands (for the fishermen who don't respect the regulation of the use of fishing nets)

Thanks for your attention !
